PeproTech is a manufacturer of high quality cytokine products, animal-free reagents, E.coli, insect and mammalian cell-derived recombinant proteins, antibodies, ELISA development kits, and other cytokine-related reagents.

As a manufacturer of our entire product range, we offer bulk quantities, customised vialing, and provide personalised technical support to our customers.

To place your order, please contact PeproTech.

This offer is not available in combination with any other offer or institutional discount.
